

Head of Data Science

Department: Data Science

Reporting Structure: Chief Technology Officer

Job Summary:

We are seeking a highly skilled and experienced Head of Data Science to lead our Data Science department. The ideal candidate will be responsible for developing and implementing data-driven strategies to drive business growth and innovation. This role requires a strong background in data analysis, machine learning, and statistical modeling.

Responsibilities:

- Lead and manage a team of data scientists to deliver high-quality insights and solutions
- Develop and implement data-driven strategies to support business objectives
- Collaborate with cross-functional teams to identify opportunities for data-driven decision making
- Stay current on industry trends and best practices in data science
- Communicate complex data findings to non-technical stakeholders

Qualifications:

- PhD or Master's degree in Data Science, Statistics, Computer Science, or related field
- Minimum of 5 years of experience in a data science role
- Strong programming skills in Python, R, or similar languages
- Experience with machine learning algorithms and statistical modeling
- Excellent communication and leadership skills

If you are a data-driven leader with a passion for innovation, we encourage you to apply for the Head of Data Science role at our company.
