

Head of Data Analyst

Department: Data Analytics

Reporting Structure: Reports to Chief Technology Officer

Job Summary:

We are seeking a highly skilled and experienced Head of Data Analyst to lead our data analytics team. The successful candidate will be responsible for overseeing all data analysis activities within the organization, providing strategic direction, and driving data-driven decision making.

Responsibilities:

- Develop and implement data analysis strategies to support business objectives
- Lead a team of data analysts to deliver high-quality insights and reports
- Collaborate with cross-functional teams to identify data requirements and priorities
- Ensure data integrity and accuracy by implementing best practices and quality control measures
- Stay up-to-date with industry trends and emerging technologies in data analytics

Qualifications:

- Bachelor's degree in Computer Science, Statistics, Mathematics, or related field
- 5+ years of experience in data analysis, with at least 2 years in a leadership role
- Strong proficiency in data visualization tools and statistical software
- Excellent communication and presentation skills
- Ability to work collaboratively in a fast-paced environment

Skills:

- Data analysis
- Team leadership
- Strategic planning
- Problem-solving
- Project management
